Company introduction

With more than 10 years market experience, Shenzhen Technology Limited gathers a professional elite team specializing in wireless smart home technology to become a high tech enterprise uniting the technological innovation, research and development, production, sales & service. Ranging from DIY alarm and video systems to security, our products provided the security assurance for thousands of domestic and overseas families.

* We commit to the research and development, production and sales of smart home security products, with core technology of independent intellectual property rights.

* We support smart burglary alarm system, video surveillance, intelligent IoT products (smoke sensors, gas detectors, carbon monoxide detectors, magnetic detectors, infrared detectors, emergency switches, sirens) and many other products.

* Strict quality control is our eternal pursuit, also the promise to every customer, ensuring our global customers and ultimately the end users a total smart home security experience, with complete peace of mind and complete control in their hands.

Solutions for Smart Home Security

Home security system is important to prevent theft, robbery, fire and other would-be accidents. In the event of any emergency, the system will notice the user by alarm call, SMS, APP notification to take quick emergency measures.

Smart security alarm system

The serial number	Name	Remark
1	Alarm hub	Total home protection — intrusion and motion detection, video surveillance, and remote system arming and control. Working together with the alarm hub, any alarm is triggered, alarm calls and alarm SMS, APP alert notification will be sent to the user's mobile phone.
2	PIR motion sensor	
3	Door sensor	
4	Remote Control	
5	Siren	
6	Wireless Strobe Siren	
7	RFID Card	
8	Smoke Detector	

Remote Control

★ Users can use mobile APP and computer terminal to check and operate the alarm system at anytime and anywhere. No matter how far you go, the home is always in your hand.

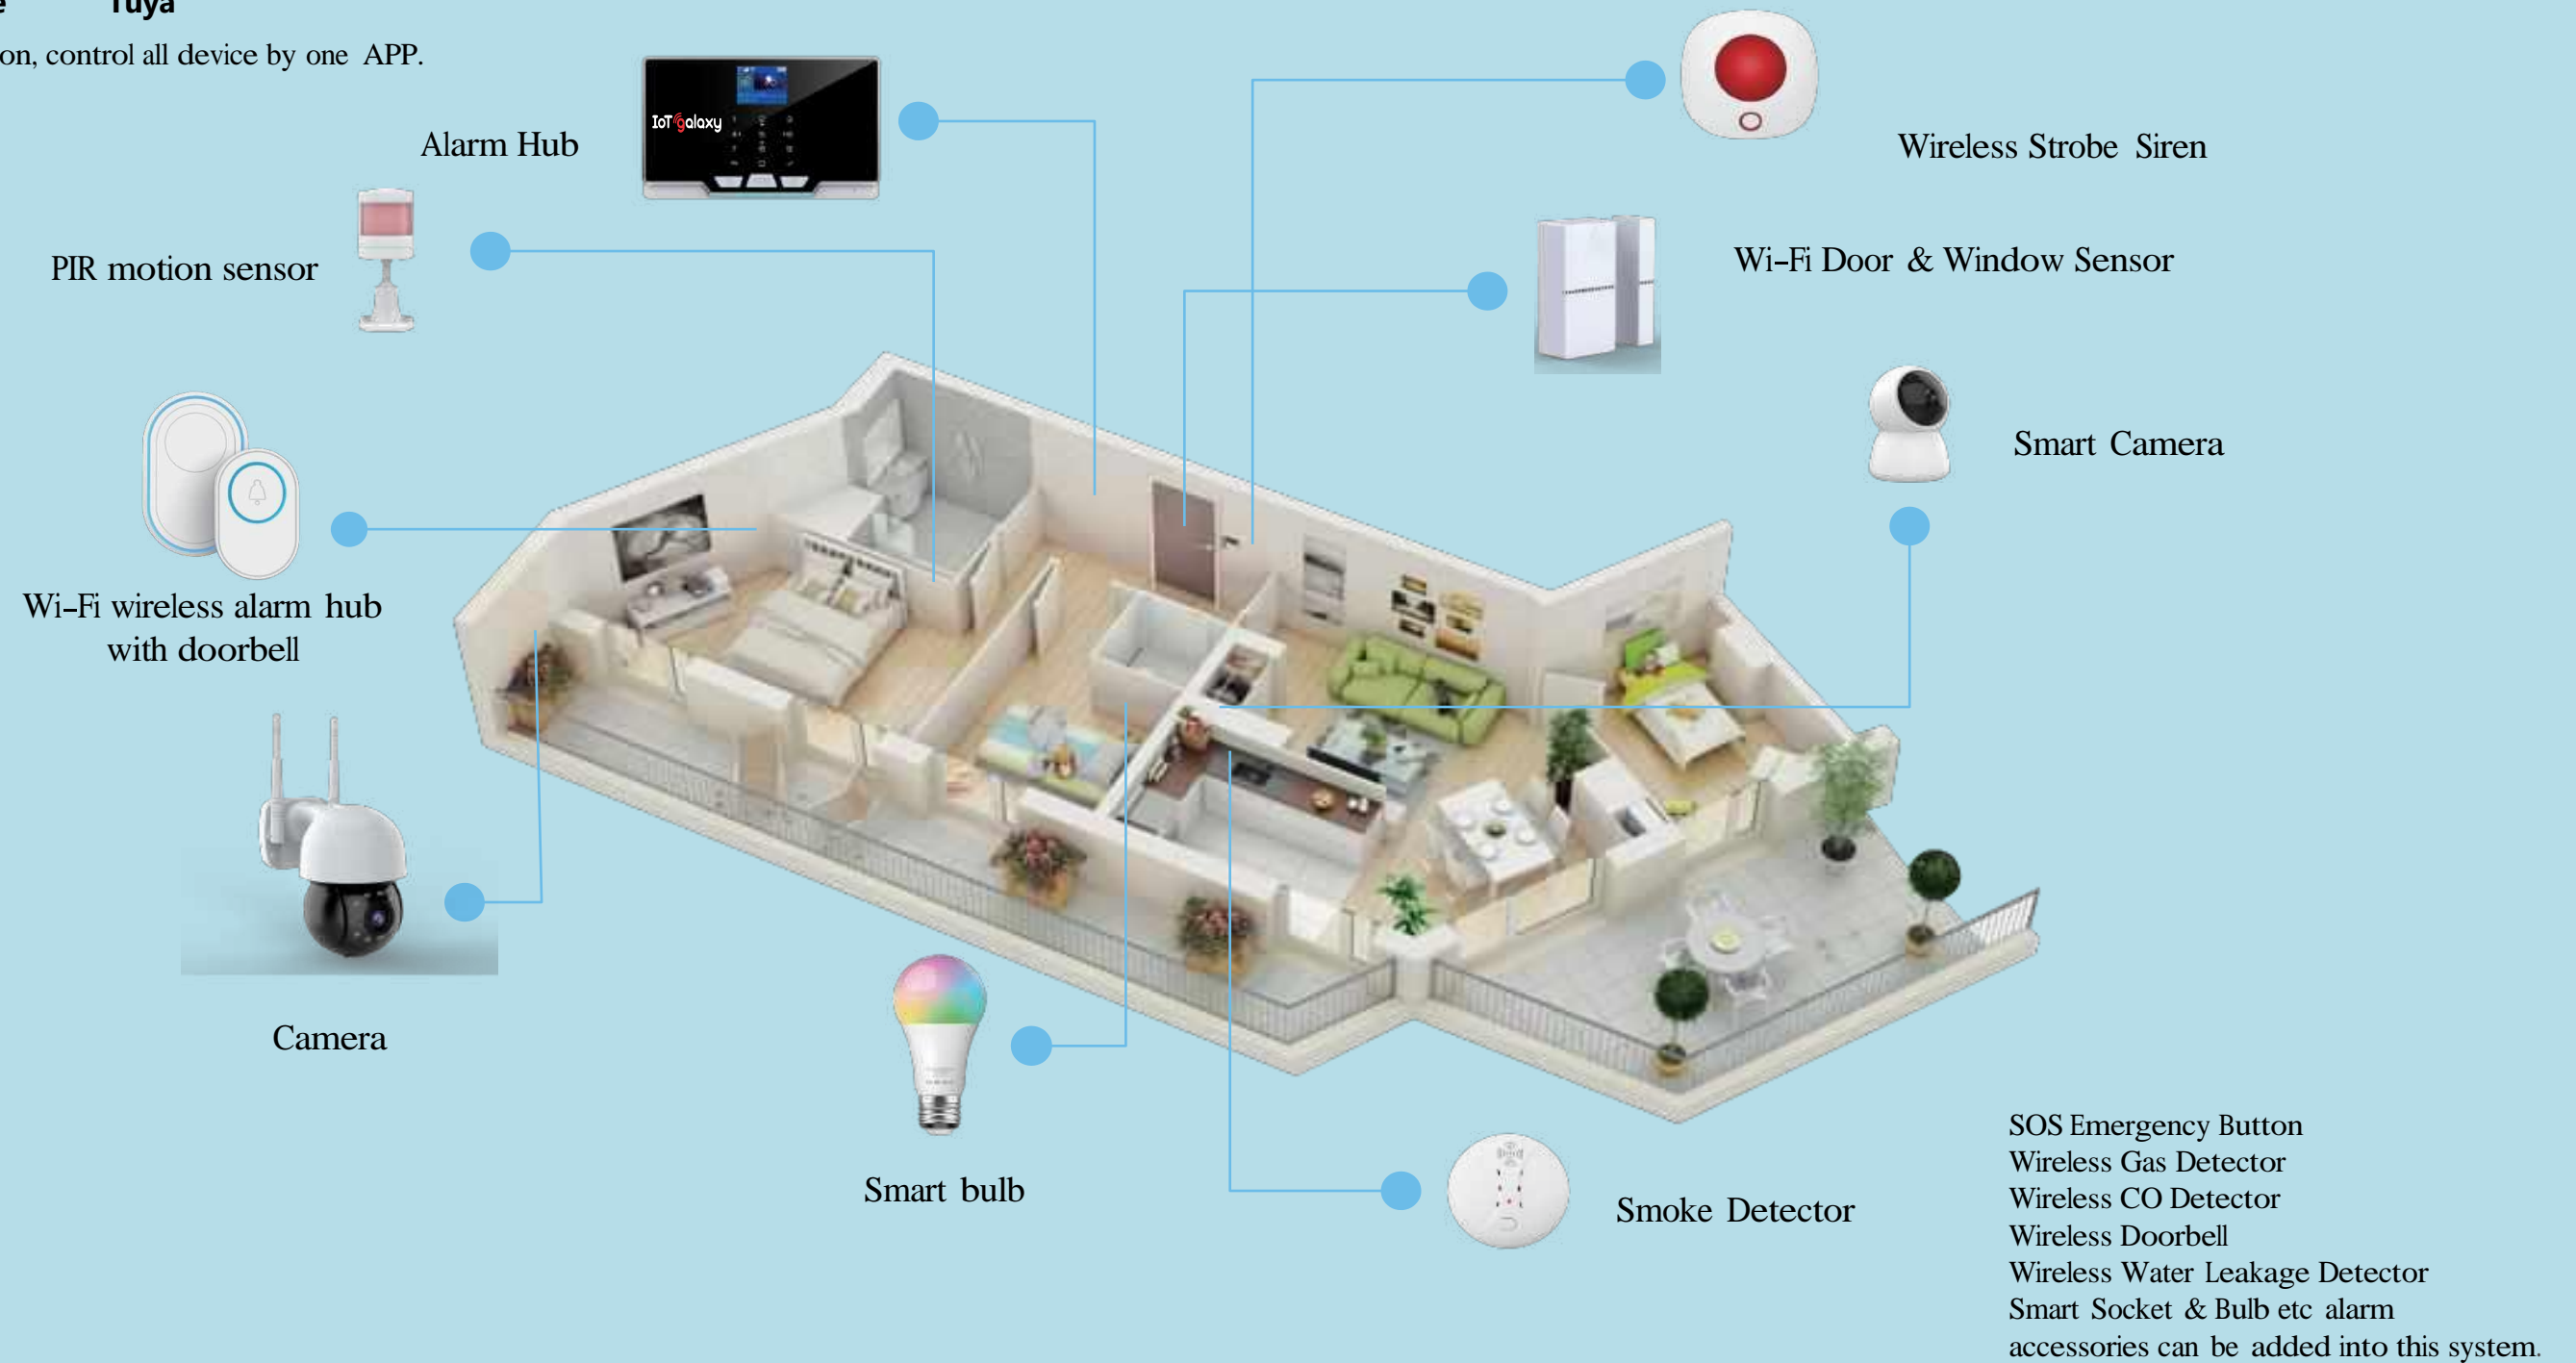

Check what you want

Smart Life Tuya

Tuya solution, control all device by one APP.

4G+ WiFi Burglar Alarm System

Specifications

1. Power Supply: Micro USB 110/220VAC to 5V, 1000mA
2. Backup Battery: 3.7V, 500mAh Rechargeable Lithium
3. Battery Consumption: <55mA@normal
4. Siren Output: <500mA
5. Radio Frequency: 433Mhz
6. GSM: 850/900/1800/1900MHz
7. Wi-Fi: IEEE802.11b/g/n
8. Operation Temperature: -10~55°C
9. Product weight: 250g
10. Product size: 179*114.5*21.7mm

Features

- Powered by Tuya APP Timed arm/disarm function. Support
- Door/window unclosed notification arm/disarm function. Support
- 11 kinds of language
- Support external wired siren.
- 100 wireless defense zones, 3 wired defense zones.
- 5 groups preset alarm phone/ SMS numbers & voice prompt
- . Low battery notification in alarm panel, wireless sensors etc.
- support phone/ SMS/ APP remote parameter
- setting /monitoring and accessory management

Banks, factory warehouses, villas, stores, garages, schools, computer rooms, shopping malls etc important occasions.

Door/Window Sensor

Specifications

Power Supply: DC 3V (CR2032 Lithium Battery x1) Standby Current: <8uA
 Alarm Current: <15mA
 Transmitting Distance: <80m (Open Area/No Interference) Radio Frequency: 433Mhz
 Operation Temperature:10~55°C
 Productweight:20g
 Product size: 38*12*49.1mm

Features

Easy Installation

Low Voltage Alarm

Button Battery Power, Long Standby

Tamper Alarm

Wireless PIR Motion Sensor

Specifications

Power Supply: 1.5V AA battery x3
 Standby current: < 15 μA
 Alarm current: <15mA
 Detection scope: <12m/110°
 Wireless transmitter codes: 1527
 Wireless frequency: 433Mhz
 Operation temperature: -10~+55°C
 Transmitting distance: ≤120m (Open Area and No Interference)
 installation height: 1.7-2.5m (2.2m is recommended)
 Product weight: 110g
 Product size: 60*114.5*42.8mm

Features

Pet immunity

Low Voltage Alarm

Tamper Alarm

Wireless Connection

Smart Home Wireless Doorbell

Doorbell

1. Power Supply: 110/220VAC
2. Consumption: <math><5\text{mA}</math> @Standby
3. Radio Frequency: 433Mhz
4. Selectable Melodies: 58
5. Volume Levels: 5(mute included)
6. Sound Level(typical): 85dBA
7. Expandable: up to 100 receivers
8. Operation Temperature: $-10\sim 55^{\circ}\text{C}$
9. Product weight: 80g
10. Product size: 56.6*90.6*65mm

Push Button

1. Power Supply: DC 3V (CR2032 Lithium Battery x1)
2. Standby Current: <math><5\mu\text{A}</math>
3. Transmitting Distance: <math><80\text{m}</math>
(Without obstacles and (no Interference))
4. Radio Frequency: 433Mhz
5. Operation Temperature: $-10\sim 55^{\circ}\text{C}$

Wireless Remote

Specifications

- Power Supply: DC 3V (CR2025 Lithium Battery x1)
Standby Current: <math><5\mu\text{A}</math>
- Alarm Current: <math><15\text{mA}</math>
- Transmitting Distance: <math><80\text{m}</math> (Open Area and No Interference)
- Radio Frequency: 433Mhz
- Operation Temperature: - Product weight: 10g
- Product size: 33*60*10.2mm

Internet Cloud IP Camera

IoT Special center

Specifications

1. Product name: Wifi Ip Camera
2. Sensor: CMOS
3. Data Storage Options: Cloud
4. Video Compression Format: H.265
5. Support: Auto Tracking
6. Lens: 3.6mm Lens
7. Image Sensor: CMOS
8. APP: Tuya/YCC365Plus
9. Audio: Two-way Audio
10. Pan 0-350° & Tilt 0-120°
11. Night vision: 5~10 meters
12. Storage: Micro SD(MAX.128G)
13. Image Compression: H265 Video Compression
14. Special Features: Auto Tracking
15. Resolution: 2.0 Megapixel Sensor, 1080P (1960*1080), 3.6mm lens
16. Operation Temperature: -10°C~+50°C
17. Product weight: 180g
18. Product size: ZX-C23 (84*84*117mm)
ZX-C24 (75.8*71.5*109.5mm)

Features

Cloud Storage

HD Video

Remote Control

Alarming Voice

Timing Video

IOS system

Android system

2-Way Audio

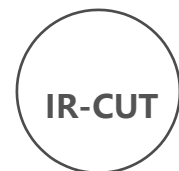

P2P Service

Wi-Fi Connection

TF Local Storage

Infrared Night Vision

Remote Monitoring

Motion Detection

"IoT galaxy" Perfect Solution for Your Home

- ✓ Self-monitoring or 24/7 fast-response pro monitoring
- ✓ Customizable systems you can easily set up yourself
- ✓ Customizable alerts, schedules and automations
- ✓ Security and video packages
